ABOUT MYSELF

Cybersecurity Architect with more than 25 years of experience across enterprise infrastructure, cloud architecture, and cybersecurity.

Currently leading enterprise cybersecurity architecture initiatives at Siemens aligned with the NIST Cybersecurity Framework, focused on improving organizational visibility of risk, exposures, and threat intelligence.

Former AWS Solutions Architect with extensive experience helping large organizations design secure, resilient, and well-architected cloud environments at scale.

WORK EXPERIENCE

Siemens - Spain, Madrid

Lead Cybersecurity Architect

[03/12/2024 - Current]

Enterprise Cybersecurity Architect leading architecture initiatives aligned with the Identify domain of the NIST Cybersecurity Framework, focused on improving organizational visibility of threats, risks, exposures, and vulnerabilities across enterprise environments.

Key responsibilities:

- Define the target architecture, platforms, and operating model required to scale enterprise risk visibility.
- Lead strategic initiatives to strengthen organizational capabilities for identifying and understanding cyber threats, exposures, and vulnerabilities.
- Design approaches that improve risk transparency across infrastructure, software platforms, and product environments.
- Integrate intelligence sources such as threat intelligence and software supply chain signals to enhance early risk identification.
- Collaborate with engineering, product, and security teams to ensure cybersecurity architecture supports enterprise-wide risk awareness, governance, and long-term resilience.

Amazon Web Services (AWS) - Spain, Madrid

Sr. Cloud Optimization Specialist Solutions Architect

[02/07/2018 - 02/12/2024]

Last role: Cloud Optimization Specialist Solutions Architect working with enterprise customers and partners to design secure, resilient, and cost-efficient cloud architectures based on the AWS Well-Architected Framework and Cloud Adoption Framework.

Focused on improving security posture, operational maturity, and architectural resilience of large-scale cloud environments.

Held multiple roles during tenure:

- Sr. Cloud Optimization Specialist Solutions Architect (2022–2024) - Madrid

- Area of Depth Expert – Cybersecurity (Threat Detection & Incident Response) (2021–2024) - Madrid - Buenos Aires
- Sr. Well-Architected Specialist Solutions Architect (2021–2022) Buenos Aires, Argentina
- Sr. Solutions Architect – Partner Organization (2019–2021) Buenos Aires, Argentina
- Sr. Technical Account Manager (2018–2019) Buenos Aires, Argentina

Across these roles I supported enterprise organizations in designing scalable cloud architectures, improving operational resilience, and strengthening security posture across distributed environments.

My work included cloud architecture advisory, security best practices, incident response readiness, Well-Architected Reviews, and enablement programs that helped partners and customers adopt AWS securely and at scale.

Accenture - Argentina, Buenos Aires

Technology Architecture Team Lead, for Cloud Operations

[01/06/2014 - 01/01/2018]

Led cloud architecture and engineering operations for enterprise platforms running on AWS, ensuring scalability, reliability, and operational stability across production environments.

Key responsibilities:

- Provided technical leadership for distributed cloud platforms and architecture decisions.
- Guided engineering teams in adopting AWS architecture best practices and operational standards.
- Oversaw platform operations, reliability improvements, and cloud cost optimization initiatives.

ExxonMobil - Argentina, Buenos Aires

Sr. UNIX / Linux System Administrator

[01/01/2013 - 01/06/2014]

Unix administrator responsible for Solaris and Red Hat platforms in enterprise environments. Managed storage and file systems using Sun Volume Manager, Veritas Volume Manager and LVM. Operated high-availability clusters with Sun Cluster and Veritas Cluster, and participated in incident response and patching operations across Solaris and Red Hat infrastructure.

Orga Systems - Argentina, Buenos Aires

Team Leader for 2nd Level Support

[01/11/2011 - 01/01/2013]

Led second-level support operations for enterprise customers in LATAM, ensuring service stability and operational excellence. Responsible for incident management, service delivery coordination, and maintaining strong customer relationships while meeting contractual support obligations.

IBM - Argentina, Buenos Aires

Technical Leader for Business Intelligence

[01/01/2011 - 01/11/2011]

Technical lead for infrastructure supporting IBM Cognos BI platforms across global teams. Provided Linux on IBM Z (zLinux) infrastructure support and coordination for distributed BI services.

Hewlett Packard Enterprise - Argentina, Buenos Aires

Sr. Unix System Administrator. Solaris & Red Hat Specialist

[01/07/2009 - 01/01/2011]

Provided enterprise Unix/Linux administration for Solaris and Red Hat environments, including storage management with Sun and Veritas Volume Manager and high-availability clusters using Sun Cluster and Veritas Cluster.

Sun Microsystems - Argentina, Buenos Aires

Sr. Unix System Administrator - Solaris Specialist.

[01/03/2008 - 01/12/2010]

Solaris system administrator responsible for provisioning and operating Solaris 10 environments using Zones (containers) and JumpStart automation. Managed storage with Sun Volume Manager and Veritas Volume Manager and operated high-availability clusters using Sun Cluster.

IBM - Argentina, Buenos Aires

Sr. Linux/Unix System Administrator

[01/01/2007 - 01/03/2008]

Provided enterprise Linux and Unix administration for American Express infrastructure, supporting Red Hat environments, storage management with Veritas Volume Manager, and high-availability clusters using Veritas Cluster.

Red Hat - Argentina, Buenos Aires

Sr. Red Hat Linux Consultant and pre-sales

[01/06/2005 - 01/09/2006]

Provided consulting and pre-sales support for enterprise Linux deployments, leading implementation projects for large public sector organizations including AFIP, Ministerio de Economía, and PAMI. Projects included infrastructure services such as mail, application servers, and file services on Red Hat Linux platforms.

NahuelSAT S.A. - Argentina, Buenos Aires

UNIX / Linux Administrator

[01/01/2000 - 01/06/2005]

Linux and Solaris administrator in satellite operations data center environments. Responsible for infrastructure services including mail, proxy, and web services, as well as Windows-to-Linux migrations and automation using Bash scripting.

MemoSoft S.A - Argentina, Buenos Aires

Network and Linux Administrator

[01/03/1998 - 01/06/2000]

Managed Windows NT and Novell NetWare network environments and implemented early Linux infrastructure services including proxy, mail, file, and backup servers.

SKILLS

Cybersecurity Architecture

Enterprise Cybersecurity Architecture | Cloud Security | Vulnerability & Exposure Management | Cyber Risk Management | Threat Intelligence | NIST Cybersecurity Framework

Cloud Architecture

AWS Solutions Architect | AWS Well Architected Framework | AWS Cloud Adoption Framework | AWS Cloud Optimization

Enterprise Technology

Enterprise Architecture | Linux | Docker | Network Security

EDUCATION & TRAINING

Oxford Cyber Security for Business Leaders

University of Oxford [01/02/2026 - 31/03/2026]

City: Oxford | Country: United Kingdom
